WORK EXPERIENCE

Ambalay

Mobile App Developer

June 2024 - Jan 2025

- Designed and developed a location based contribution using **Flutter Firebase**, and **Node JS**.
- Integrate advanced routing and navigation features by implementing **Valhalla** and **OSRM** services, providing users with efficient and accurate route calculations.
- Implemented **OTP** verification and user authentication to ensure secure access and personalized experience.

Freelancing

Mobile App Developer | Full Stack Web Development

January 2023 - Present

- Design and develop cross-platform mobile applications.
- Implement **payment integration**, **third-party APIs** and **user authentication**.
- Deploy and maintain apps on **Google Play Store** and **Apple App Store**.
- Develop responsive websites and dynamic websites.
- Implement **RESTful APIs**, **database management** and **cloud deployment**.

EDUCATION

University of Gondar

Bachelor of Information Systems - 3.85

October 2019 - October 2023

PROJECTS

Ambalay App

June 2024 - February 2025

- **User-Generated Content:** Users can add locations, update details, and submit reviews with rating and images.
- **Advanced Routing and navigation:** Utilized **OSRM** to provide customizable maps with location markers, search functionality, and detailed place information.
- **Secure Authentication &OTP:** Implemented **Firebase** authentication with **OTP**-based login.
- **Technologies used:** **Flutter**, **Firebase**, **Node JS**, **OpenStreetMap** and **Valhalla**.

Coffee house App

November 2023 - March 2024

- Users can browse a list of available food items and a shopping cart feature allows users to add, remove, and update their orders with a secure checkout with payment integration.
- Clean and modern UI with adaptive layouts that ensure responsiveness across different screen sizes.
- **Technologies used** includes **Flutter**, **Firebase**, **Stripe** and **Chapa**.

SKILLS

- **Languages:** Dart, Python, JavaScript.
- **Frameworks:** Flutter, React Native, React JS, Vue JS, Django, TensorFlow.
- **Databases:** Postgress, Firebase, MongoDB, My SQL, AWS services.
